

# When We Escape

## Minus The Bear

Someone's turning the lights down low  
And the music up, do you feel the beat?  
I see you do by the way you move  
I need to feel your body moving on me  
You must be an illusion  
Can I see through you?  
Someone's pulling me out the house  
'Coz there's cars parked up and down the street  
Your dress is begging to come off  
A quiet dark place is all we need  
You must be an illusion  
Can I see through you?  
You must be an illusion  
You must be an illusion  
When we escape  
It's with a white lie, we're both alive  
Now we lay this close  
Catchy measures of the pulse  
You must be an illusion  
Can I see through you?  
You must be an illusion  
You must be an illusion  
You must be an  
You've got to be  
An illusion, an illusion  
You must be an illusion  
Can I see through you?  
You must be an illusion  
You must be an illusion  
You must be an illusion  
(You've got to be an illusion)
