

# Doctor

## The Bird and the Bee

Oh so restless again  
I don't think I'm well  
I don't learn my lessons  
Oh the doctor says  
There's just nothing wrong  
He said  
"I'm sorry honey, but it's all in your head"  
I know that you're right  
But could you hold me tonight  
Doctor, Doctor, Doctor, Doctor  
Give me pills, or give me love  
You're the only one who knows  
How I try so hard to let it all go  
Doctor, Doctor, Doctor, Doctor, Doctor  
Kiss me now, kiss me again  
You're the only one who tries  
You really look into my eyes  
Oh I need to come in  
I have such a pain  
And it starts deep within  
Oh the doctor says  
That everything's fine  
He said  
"I see that you're hurting, but I can't find the thread."  
I feel how you care  
Won't you start this affair?  
Doctor, Doctor, Doctor, Doctor  
Give me pills, or give me love  
You're the only one who knows  
How I try so hard to let it all go  
Doctor, Doctor, Doctor, Doctor, Doctor  
Kiss me now, kiss me again  
You're the only one who tries  
You really look into my eyes  
Doctor, Doctor, Doctor, Doctor  
Give me pills, or give me love  
You're the only one who knows  
How I try so hard to let it all go  
Doctor, Doctor, Doctor, Doctor, Doctor

Kiss me now, kiss me again  
You're the only one who tries  
You really look into my eyes
