Pushing On

No Warning

With everything that goes on
When I never thought it would get worse
There always seems to be something more
That pushes me awayPushing on
Can't stop nowI relive, I remember, it sticks and it stays
All this time spent alone recapping the days
Pace myself, push myself
Pushing on, I'm all I've gotI won't let it stop
But I've got to slow down
Slowly I will rot
Looking out for all I keep aroundI can't stop now
I can't stop now
