

# Pushing On

## No Warning

With everything that goes on  
When I never thought it would get worse  
There always seems to be something more  
That pushes me awayPushing on  
Can't stop nowI relive, I remember, it sticks and it stays  
All this time spent alone recapping the days  
Pace myself, push myself  
Pushing on, I'm all I've gotI won't let it stop  
But I've got to slow down  
Slowly I will rot  
Looking out for all I keep aroundI can't stop now  
I can't stop now
