

How We Do This

Sterling Knight

I'm good to be on my own
Keeping my heart shut down
If I don't go there, I won't get hurt
But the pretty girl said If you never ever gonna get hurt again
Are you ever gonna feel another thing my friend
And I like the way she talks And I la, la, la, la
Like the way she spins my world around
And my ha, ha, ha, ha
Heart's good for one more kick So how do we do this?
'Cause I believe you're worth it
How do we do this what to take?
And isn't gonna break me down I found that nothin' can come from nothin'
So you better come round, I'm down
How do we do this? So tell me get ready
'Cause things are gettin' heavy
And I don't wanna fall apart
'Cause spending time with you
Was all I wanna do You know, it's scary givin' up your heart
But you give me that something
Been waiting so long and I make you smile
That's why I wrote this song And I la, la, la, la
Like the way you spin my world around
And my ha, ha, ha, ha
Heart's good for one more kick So how do we do this?
'Cause I believe you're worth it
How do we do this, what to take?
And isn't gonna break me down I found, that nothin' can come from nothin'
So you better come round, I'm down
How do we do this? I'm risking, one kiss is all that its taken
I'm shaking, heart breakin'
I think you'll be worth the pain And I la, la, la, la
Like the way she spins my world around
And my ha, ha, ha, ha
Heart's good for one more kick So how do we do this?
'Cause I believe you're worth it
How do we do this, what to take?
And isn't gonna break me down I found, that nothin' can come from nothin'
So you better come round, I'm down
How do we do this?
