

# Everybody Oughta Make a Change

[Eric Clapton](#)

Well, change in the weather, change in the sea  
Come back, baby, you'll find a change in me  
Everybody, they ought to change sometime Yeah, because sooner or later  
We have to go out in that lonesome ground Well, I changed suits, I changed shirts  
I changed, baby, just to get shed of the dirt  
Everybody, we ought to change sometime Yeah, because sooner or later  
We're going out in that lonesome ground Well, I changed, honey, I changed money  
I changed, people, just to keep from being funny  
Everybody, they ought to change sometime Yeah, because sooner or later  
We're going out in that lonesome ground Well, change in the ocean, change in the sea  
Come back, baby, you'll find a change in me  
Everybody, we ought to change sometime Yeah, because sooner or later  
We're goin' out in that lonesome ground, well
