

# Heaven Is the Hope

Matthew West

We are surrounded  
By a world that's not our Home  
We are grounded  
Until it come our time to go And our souls are aching  
With a void that won't be filled  
Till we see our mansion  
High up on the hill All the tear-stained pages  
That fill the stories of our life  
Will be erased when  
Love lifts up our tired eyes And we see Jesus  
For the first time face to face  
All the pain will fall  
A million miles away 'Cause Heaven is the Hope that we hold on to  
Heaven is the Promise for me and for you  
That all we really are is passing through  
To something better Weeping may last all through the night  
But Joy is gonna come with a Morning Light  
Heaven is the place for you and I  
Are gonna live forever Heaven is the hope [x2]  
Heaven is the hope we hold on to I am so excited  
And now my heart can hardly wait  
To see all the loved ones  
That we have lost along the way And every sickness  
Will be healed once and for all  
And every burden we have bear  
Will finally fall 'Cause Heaven is the Hope that we hold on to  
Heaven is the Promise for me and for you  
That all we really are is passing through  
To something better Weeping may last all through the night  
But Joy is gonna come with a Morning Light  
Heaven is the place for you and I  
Are gonna live forever Heaven is the hope  
Heaven is the hope  
Heaven is the hope we hold on to There'll be no more pain and no more sorrow  
It could be today it could be tomorrow  
But until he call us home  
Heaven is Our hope 'Cause Heaven is the Hope that we hold on to  
Heaven is the Promise for me and for you  
That all we really are is passing through

To something better Weeping may last all through the night  
But Joy is gonna come with a Morning Light  
Heaven is the place for you and I  
Are gonna live forever Heaven is the hope  
Heaven is the hope  
Heaven is the hope we hold on to So we'll keep waiting  
Just a few more weary days  
And we'll keep watching  
For those clouds to roll away  
And we'll keep walking  
Down this straight and narrow road  
Telling all the world  
That heaven is the Hope  
Just telling all the world  
That heaven is the Hope  
Telling all the world  
That heaven is the Hope There'll be no more pain and no more sorrow  
It could be today it could be tomorrow  
But until he call us home  
Heaven is Our hope My heart can't wait till that day comes  
I'm gonna hear Him say my child well done  
Till it come my time to go  
Heaven is the Hope
