

Rollercoaster

Bean

You're such a tease
You've got me begging on my knees
Like a book you've read my pages
Then put me down
Trashed my name don't like my sound
Guess it's a sign you're so outrageous Buckle up baby
I won't take a maybe
Strap your heart down to the floor (to the floor)
I'm holding on crazy Clenching for dear life
You won't throw me off
Throw me off You're like a roller coaster
Move and shake me side to side
Yes then a no baby making me ride
Like a roller coaster
Move and shake me side to side
Yes then a no baby making me ride
We're going up
We're going down
We're going up
We're going down down down down Soon you'll be
Humming to these melodies
Like a plague
I'm so contagious
I'm still here
No I'm not going anywhere
So here's a kiss
A kiss to all my haters Buckle up baby
I won't take a maybe
Strap your heart down to the floor (to the floor)
I'm holding on crazy
Clenching for dear life
You won't throw me off
Throw me off You're like a roller coaster
Move and shake me side to side
Yes then a no baby making me ride
Like a roller coaster
Move and shake me side to side
Yes then a no but a maybe ride
We're going up

We're going down
We're going up
We're going down down down down
We're going up
We're going down
We're going up
We're going down down down down Won't live on a prayer
Already half way there
There's no stopping now
Got my high heels on
Going all night long
Yeah yeah You're like a roller coaster
Move and shake me side to side
Yes then a no baby making me ride
You're like a roller coaster
Move and shake me side to side
Yes then a no but a maybe ride
Like a roller coaster
Move and shake me side to side
Yes then a no but a maybe ride
We're going up
We're going down
We're going up
We're going down down down down
We're going up
We're going down
We're going up
We're going down down down down
Oh yeah
Going down
