## Alpha

Step outside  
Can feel the warmth  
Much stronger than inside  
Crazy path that led you here  
Creates a place too high.  
And I'm scared to be so heartless  
I'm hoping that you'll learn  
There's only one and that is you  
And I'm scared to be so heartless  
I'm hoping that you'll learn  
There's only one and that is you  
Frightened eyes taking the view  
Forgetting how it feels  
Look around, believe yourself  
The world outside is real  
And I'm scared to be so heartless  
I'm hoping that you'll learn  
There's only one and that is you  
And I'm scared to be so heartless  
I'm hoping that you'll learn  
There's only one and that is you  
Gave myself to you,  
No one can deny  
I'm still waiting 'til you be  
So content to feel,  
Can't despise myself  
I'm still waiting 'til  
Leave me break my heart  
Can't control the pain  
I'm still waiting 'til.
