Date Line (i Am Gone)

Yellowcard

This is just a matter of
Me getting what I needed
Til I was safe upon the other side
Of the International Date LineIt was just a matter of
Me keeping myself seated
Til the pilot killed the overdrive
And landed in a place where you can't
Find me there, find me thereWhen you hold one chance
And you break your hands
When the secret's safe
And you call my name
Then I am goneI'm tired of you and me
And the space that's in between
And I would rather be somewhere
With better thoughts and warmer airI'm tired of trying to be
Somebody different than me
I'm tired of trying to shine it on
When the lights go out tonight, I'm gone
I'll run from here, runWhen you hold one chance
And you break your hands
When the secret's safe
And you call my nameWhen the hurt gets real
And you still can't feel
When you can't escape
And you cannot stay
Then I am goneSafe upon the other side
Of the International Date Line
I landed in a place that you can't find
You can't find me there
You can't find me thereWhen you hold one chance
And you break your hands
When the secret's safe
And you call my nameWhen the hurt gets real
When you still can't feel
When you can't escape
And you cannot stay
Then I am goneSafe upon the other side
Of the International Date Line
I landed in a place that you can't findWhen the last plane leaves

And you cry for me
When you lie awake
And you feel it break
Then I am gone
