## Bury Your Dead

Just because you turned your back  
Just because you turned away  
It doesn't make me any better  
It doesn't make you any less You think you're better?  
My ideals are still the same  
You're the one who fucking sold out  
You're the only one to blame Just because you turned your back  
It doesn't make me any less  
Let's go Bring it back  
Just because you turned your back
