

# Entity

## dan le sac Vs. Scroobius Pip

(Intro) Every three years, an ancient ritual takes place here

Every three years, an ancient ritual takes place here (Madrox) I communicate with the dead through seven LED screens

    All programmed to channel 13

    They converse and have a laugh and tell a joke or two

    You probably think I'm out my skull but that shit is all true

    Me and my brother got a hundred fifty reasons or more

    Why they live inside the wall and hide under the floor

    They haven't walked into the light or the dark

    And even though there's no life in their body

    There's a pulse where their heart used to be

        That's called kinetic energy

    Where there's a will to survive

        There is a will to be

    An angry entity lives here now

    And he's more pissed on how things turned out

        He's got a deep rooted anger

        That lingers like a foul stench

    An eternal thirst that'll never be quenched

        So pack your bags if you just moved in

Cause there's no telling the things he's capable of doing (Chorus) There's a dark spirit living in your house with you

    So here's a quick list of things you gon need to do

        GET THE FUCK OUT!

    Don't grab shit, just hit the door

        GET THE FUCK OUT!

    Don't even mind the blood that's on the floor!

    There's a dark spirit living in your house with you

    So here's a quick list of things you gon need to do

        GET THE FUCK OUT!

    Now he's gonna try to trick you to stay

        GET THE FUCK OUT!

Don't look back, just run the fuck away! (Monoxide) I'm sitting watching TV and my lights go out

    So now I'm sitting in the dark like

        What the fuck's this all about?

    And I swear I hear somebody walking in my hallway

    So I turn and look and I see something just fade away

    I run and grab a radio, push record and play

        And I just kept quiet and parlayed

If you got somethin' to say, you gotta say it now  
Here's your chance  
It started as a whisper and slowly became enhanced  
To a blood curdling scream (aaaaaaaaaagh)  
He said if I don't go, he'll come and get me  
And he'll never let me leave  
I'm not a skeptic, the message was intercepted  
By my radio, telling me to leave or I'd regret it  
I got the fuck out quicker than jailbirds  
Who got an early release, a credit  
For having some time served  
There's a real estate for sale sign on my lawn  
And no one even knows that I'm gone(Chorus)There's a dark spirit living in your house with you  
So here's a quick list of things you gon need to do  
GET THE FUCK OUT!  
Don't grab shit, just hit the door  
GET THE FUCK OUT!  
Don't even mind the blood that's on the floor!  
There's a dark spirit living in your house with you  
So here's a quick list of things you gon need to do  
GET THE FUCK OUT!  
Now he's gonna try to trick you to stay  
GET THE FUCK OUT!  
Don't look back, just run the fuck away!(Shaggy 2 Dope)Seems Madrox tunes into channel thirteen  
But I prefer number seventeen, know what I mean?  
Probably not, but I can see some poltergeist shit  
(They're heeeeeeeeere)  
I can't get enough of it!  
See, this house is plagued with demons and so forth  
They even got statues on the front porch  
But I'll fuck around  
And just sit there and pet them boys  
People seem hokey but I see the real McCoys  
Oh boy, when you see a ball rolling down the stairs  
Get ready to change the fuck up out them underwear  
Cause these spirits, they don't play  
These demons and spirits  
Spirits and demons are homies  
And if you ain't passed or connected to the afterworld  
You'll be running out this house like a little girl  
So when you hear  
(GET THE FUCK OUT)  
There'll be a for sale sign, without a doubt(Chorus)There's a dark spirit living in your house with you  
So here's a quick list of things you gon need to do  
GET THE FUCK OUT!

Don't grab shit, just hit the door

GET THE FUCK OUT!

Don't even mind the blood that's on the floor!

There's a dark spirit living in your house with you  
So here's a quick list of things you gon need to do

GET THE FUCK OUT!

Now he's gonna try to trick you to stay

GET THE FUCK OUT!

Don't look back, just run the fuck away!(Outro)(Reversed Talking)
