Goodbye to You

ZOX

Broken down in paradise
Heavy like i'm hypnotized
And iam sure the sheep are all asleep by now
I was such a fool for you
I held my breath till iturned blue
I loved you so much better when you weren't aroundYou know i hate to say goodbye to youBut it feels like its the only thing that i can do
You know i hate to say goodbye to you
But goodbye to you's the only thing it feels like i can sayAbsence makes the heart so fond
Now you're back, i'm paralyzed
Been sleeping with your skeletons inside my bed
I was such a fool for you
All those things i said were true
I just can't seem to get those feelings back again
