

# Still Around

**3OH!3**

Go ahead and burn it down  
I'm drunk and so is everyone else  
In this devil town  
They wont let me turn around  
To get one last look at my baby, While she's still around While she's still around While she's still around While  
she's still around Go ahead and build it up again  
This cities just cemeteries and forgotten nights,  
And my only hopes is to see you  
And even if I never do While she's still around While she's still around While she's still around While she's still  
around And I know what your thinkin'  
But that wont stop this drinking  
It's the least I can do  
'Cause this life is anything but certain  
When they close the final curtain  
You'll get a glimpse of the truth  
'Cause your While she's still around While she's still around While she's still around While she's still around Go  
ahead and burn it down  
I'm drunk and so is everyone else in this devil town
