

# Josephine

## Married With Sea Monsters

You'd best stay down  
You're in for a hell of a ride back home  
Got a lock on you now  
Gotta keep your back to the background

Enough whiskey to drown the butterflies  
And the last of my common sense

Back on the road  
Pumped full of holes, but I'm not gonna die  
Got a smoking gun  
Trained on a spot between your eyes

Enough whiskey to drown the butterflies  
And the last of my common sense

Josephine (been down so long you can't get back up)  
Josephine (got no one to blame for your bad luck)

Josephine  
Josephine

Been beat like a dog  
Been to hell and back, stopped by every town  
Got a lot on my mind  
But the patterns are clear and loud

Enough whiskey to drown the butterflies  
And the last of my common sense

Josephine (been down so long you can't get back up)  
Josephine (got no one to blame for your bad luck)

Josephine  
Josephine

Josephine (been down so long you can't get back up)  
Josephine (got no one to blame for your bad luck)  
Josephine  
Josephine

Josephine (been down so long you can't get back up)

Josephine (got no one to blame for your bad luck)

Josephine

Josephine
