All the Way Down

Kelela

Rock me like a lullaby, Roll me like a wheel
I'm going down, down, all the way down
Love me like a superstar, Play me like a steel
I'm going down, down, all the way down
Down, down, falling all the way down
Stand, where the good love lies
Be my man, I'll be your alibi
Wonderland, wanna give it a try
Let it ride
Rock me like a lullaby, Roll me like a wheel
I'm going down, down, all the way down
Love me like a superstar, Play me like a steel
I'm going down, down, all the way down

Down, down, falling all the way down
Here, where it all feels right
Crystal clear, as a southern sky
Oh my dear, you set my love on fire
Everytime
Rock me like a lullaby, Roll me like a wheel
I'm going down, down, all the way down
Love me like a superstar, Play me like a steel
I'm going down, down, all the way down
Down, down, falling all the way down
Show me now
Show me now
You gotta show me now
