Missing You

MISSING YOU
Itâ€™s funny I - have always been - in love for your love I lose it
It always seems - closer again - further away - you fled - from me
All the times that I would hear your man
Pray aloud that you would come
And all the nights I have your photograph
The sudden wish that it would come alive
CHORUS
You see that I canâ€™t get used to missing you
And the pain I feel is only in my heart
And you know that the words I say are only true
If I can hold you and love you [again]

I donâ€™t know - is what it is - keeps us apart - is not right
Why do I - long for your kiss â€“ and lye here awake - through the night?
All the time that I would hear your man
Pray aloud that you would come
And all the nights I have your photograph
The sudden wish that it would come alive
CHORUS x 2
You see that I canâ€™t get used to missing you
And the pain I feel is only in my heart
And you know that the words I say are only true
If I can hold you and love you [again]
