

Taped Up Heart (feat. Clara Mae)

Kream

[Verse 1: Clara Hagman]

There is no place I can hide

Cause wherever I go it's you I find

I got a can of bright blue pills

Supposed to get rid of them heavy feels, yeah [Verse 2: Clara Hagman]

I bet that she's beautiful and there is no doubt

She's all that you wanted, the queen of the crowd

I bet your friends love her, cause she's always so fun, yeah

And the worst thing of all is I used to be that one [Chorus: Clara Hagman]

Now it's only just me and my sheets

Got your hands on me on repeat

All I wanna do is go to sleep

With my taped up heart and my open bottle

Me and my sheets

You should know that we're done with your shit

All I wanna do is go to sleep

With my taped up heart and my open bottle [Bassline: Kream]

Hold up [Chorus: Clara Hagman]

Now it's only just me and my sheets

Got your hands on me on repeat

All I wanna do is go to sleep

With my taped up heart and my open bottle

Me and my sheets

You should know that we're done with your shit

All I wanna do is go to sleep

With my taped up heart and my open bottle [Bridge]

When I fall, I fall deeper, yeah, I'm still falling

Can't get rid of the feeling, the feeling haunt me

So I fall, I fall deeper, deeper, deeper

So I fall, I fall deeper, deeper, deeper [Chorus: Clara Hagman]

Now it's only just me and my sheets

Got your hands on me on repeat

All I wanna do is go to sleep

With my taped up heart and my open bottle

Me and my sheets

You should know that we're done with your shit

All I wanna do is go to sleep

With my taped up heart and my open bottle [Bassline: Kream]

Hold up [Chorus: Clara Hagman]

Now it's only just me and my sheets
Got your hands on me on repeat
All I wanna do is go to sleep
With my taped up heart and my open bottle
Me and my sheets
You should know that we're done with your shit
All I wanna do is go to sleep
With my taped up heart and my open bottle[Bassline: Kream]
