## New Order

Oh, it's a strange day  
In such a lonely way  
I saw some children dance  
I watched my life in a trance  
And the people around me  
Seemed so glad to be here  
Will my time pass so slowly  
On the day that I fear? And the noise that surrounds me  
Pulls so loud in my head  
From the promise that healed us  
To the lies that I said  
Oh, it's a strange day  
In such a lonely way  
Some people look down on me,  
I know they like what they see Strange day,  
Such a strange day  
Such a strange day
