The Moment You Were Mine

Beth Nielsen Chapman

I remember thinking love was a fool's game
Break your heart you've got your own self to blame
I've played it smart so many times, but that all changed
From the moment you were minePeople fall in love and swear they are so sure
Then they turn around and say it's over
I never trusted love to come any closer
Till the moment you were mineOne moment in time
And I knew why I had waited so long
One look in your eyes
Meant forever from that moment onI used to dream somebody's arms were around me
Wake up all alone and feel so empty
But I never dreamed how real love could be
Till the moment you were mineOne moment in time
And I knew why I had waited so long
One look in your eyes
Meant forever from that moment onI used to dream somebody's arms were around me
Wake up all alone and feel so empty
No, I never dreamed how real love could be
Till the moment you were mine
Till the moment you were mine
