Control

Marques Toliver

Let the radio keep playin'
Twenty four hours to goLet the radio keep playin'
Twenty four hours to goI couldn't move my head on Friday
Twenty four hours to go, and you're not hear baby
You know I hate sleeping alone, so do your best and hurry home
I dream about the next time we'll see each other
I don't want to have to wait to see my lover
I dream about the next time, oh, I need you now
Yeah, you know what I'm talkin' about, yeah, you know'Cause baby you control my yeah my smile baby
I can't even hold it, no, inside, babyI try to keep my mind busy on something, concentrate
But there's no use, I miss my baby, feels like I've lost a friend
But the distance between us, will not make me lose my way
Turn up your speakers, if your baby's gone away
And let the radio keep playin' (oh yeah)
Oh just let the radio keep playin'Baby you control my, yeah, my smile, baby
I can't even hold (hold it, hold it) inside babyAin't no river wide, no valley low enough
To keep me from getting to you baby
Ain't no river wide, no valley low enough
To keep me from getting to you babyTo keep me from getting, to keep me from getting
To keep me from getting to you baby
To keep me from getting, to keep me from getting
To keep me from getting to you babyI'll search to find you, find you
Because I know that you're my home
Twenty four hours to go
Your love is better than silver and gold
Than silver and gold
Twenty four hours to go
Twenty four hours to go
Baby
