

# Finders Keepers

TINI

Pretty is as pretty does  
Baby she ain't looking so good right now  
You and me so in love  
Why'd anybody wanna shoot this flight down  
Name callin' but we ain't fallin'  
When a thing is set in stone  
Always someone tryna chip away chip away  
Only makes it double strong  
Ain't nobody gonna strip away anything  
No, love ain't a free free for all  
Finders keepers  
Try to wipe this smile of my face  
You made a believer  
You made a believer out of me  
I follow the leader  
And my heart's the leader today  
It's been a long road  
We found love  
No one can take it away  
Finders keepers  
Finders keepers Yea, had to change to find the one  
Had to fill in all the little holes in my heart  
Turned to face the face of love  
Boy the light is in your eyes right where you are  
Heart stolen and i'm still falling  
And the thing about a taker is  
They just want without giving  
And the thing about a hater is  
They just hate what they're missing  
No love ain't a free free for all Finders keepers  
Try to wipe this smile of my face  
You made a believer  
You made a believer out of me  
I follow the leader  
And my heart's the leader today  
It's been a long road  
We found love  
No one can take it away  
Finders keepers

Finders keepers Oh, keeper  
Oh, keeper  
Keeper Finders keepers  
Try to wipe this smile of my face  
You made a believer (you made a believer)  
You made a believer out of me  
I follow the leader (i follow the leader)  
And my heart's the leader today  
It's been a long road  
We found love  
No one can take it away  
Finders keepers  
Finders keepers  
Finders keepers  
Finders keepers
