

Dream About My Face

Antonia

Don't wanna face the dark alone
I wanna breathe with you forever
Nobody else can want you more
To the moon and back So you can run, run, run, run
Oh, baby, you can hide
You can run, run, run, run
I'll find you, lover You can run, run, run, run
Oh, baby, you can fight
You can run, run, run, run, run And I will follow
You till you dream about my face
I will follow
You till you want me And I will follow
I'll write your name on every wall
I will follow You till you want me
Cause I need it so much
Cause I need it so much
I need it so much
I need it so much
I need it so much I see you holding hands with her
But you're not meant to be together
You know it's me you want the most
To the moon and back So you can run, run, run, run
Oh, baby you can hide
You can run, run, run, run
I'll find you lover You can run, run, run, run
Oh, baby you can fight
You can run, run, run, run, run And I will follow
You till you dream about my face
I will follow
You till you want me And I will follow
I'll write your name on every wall
I will follow
You till you want me Cause I need it so much
Cause I need it so much
I need it so much So you can run, run, run, run
Oh, baby you can hide

You can run, run, run, run
I'll find you lover You can run, run, run, run
Oh, baby you can fight
You can run, run, run, run, run And I will follow
You till you dream about my face
I will follow
You till you want me And I will follow
I'll write your name on every wall
I will follow
You till you want me Cause I need it so much
Cause I need it so much
I need it so much
I need it so much
