Delusional

Gene Kasidit

Here's to all the people who've been trying to keep me down
Got their fingers in my collar trying to turn me all around
I find it so funny to hear how much they hate
Try to push me to the ground then say they love me to my face
Say what you mean and don't try to deceive me
I so want to believe it, yes I want to, yes I do
Say what you want and don't try to prolong it
If you want to so-long it, then I want you to, yes I do
I'm feeling all the heat, they're gonna hear my call
Now I can wait to see you lose it all
You've placed your bets and he is gonna make you fall
I can't believe you're so delusional

Now I know you're gonna try to say I stole this verse from Tim',
but there's a firestarter out there and I'm sure he stole from him
first
Don't say you love me then turn around and drop me
cause soon you're gonna want me and you know it's true, yes you do
Why don't you see him the way he really is?
cause soon you'll wanna leave him and I know it's true, yes I do
I'm feeling all the heat, they're gonna hear my call
Now I can wait to see you lose it all
You've placed your bets and he is gonna make you fall
I can't believe you're so delusional
