

# My Little Snowflake

[Prozzak](#)

Every snowflake, has its own shape.  
It finds its own way, to where it's gonna land  
From the stars, you travel far,  
Into my arms, and melted in my hands.  
You sparkle when you don't try.  
Your magical hazel eyes, take me to paradise You're my little snowflake baby,  
Falling from the sky, you save me,  
Snowflake drifting onto land,  
Heaven's melting in my hands Feel the snowflake, like a ballet,  
Turning great days, into wonderland.  
(What a surprise)  
What a surprise (whoo-oo-who)  
Before my eyes, like angel butterflies  
Holding our hands  
And you sparkle when you don't try,  
Your magical hazel eyes, take me to paradise  
Little little snowflake baby  
Heavy in my mind  
Little snowflake yeah
