Hybrid

Sawa

Here I begin to fail the steps of a battle without sense
I've nearly began to understand as I grown my way
There is no light out of all the places
There is no sign of our help
There is no time and a chance of relations
What if I choose to live? Living in a dangerous womb
Its like falling every moment every stage
Living in my own little world
Outcoming every sequence of this dream
How did this begin and turned in such inhumanity?
I'm hoping for myself to escape the insanity, I'm open
What if I choose to live and what if I killed you, Inhumanity
There is no light out of all the places
There is no sign of our help
There is no time and a chance of relations What if I choose you
How did this begin and turned in such inhumanity?
I'm hoping for myself to escape the insanity, I'm open
What if I choose to live and what if I killed you Inhumanity
