

# I Love My Life

Todd Rundgren

Every day I hear the news  
Seems like people worship pain  
All your oprahs and donahues  
They just can't explainAs you reap you shall sow  
I looked high I looked low  
Now I know that I love my life  
I love my lifeI said me and my creator  
We got a funny love thing  
It's happenin' now and not later  
Yeah, that's why I singFirst came thought then came deed  
I got caught now I'm freed  
All I need is to love my life  
I love my life
