

# Backwaxed

## Anvil

Your mommy always said, Don't take those boys to bed  
It might feel good today but in 9 months you'll pay  
I know it's your first time, I'm gonna make you feel just fine  
You say you never did and you're really unpreparedDon't you worry, don't you fret  
I've got a method that ain't thought of yet  
Put it in and pull it out  
Slap it on your back and watch it spoutI don't think you'll mind if I take ya from behind  
Get you on your hands and knees, put your mind at ease  
Feel the throbbing what a treat as the wax begins to heat  
I think it's almost there, gonna pull it out with careBackwaxed, backwaxed  
You're being backwaxed  
Backwaxed, backwaxed  
You're being backwaxed  
BackwaxedOw, I think things are coming through  
[Unverified] looks good on you  
Now the shine is on your back  
Feel the heat of the wax attackYour mommy always said, Don't take those boys to bed  
It might feel good today but in 9 months you'll pay  
I know it's your first time, I'm gonna make you feel just fine  
You say you never did and you're really unpreparedBackwaxed, backwaxed  
You're being backwaxed  
Backwaxed, backwaxed  
You're being backwaxed
