Break Through Time

Ana Johnsson

Another time, another place
A chance to start all over
I've had my share, I paid my dues
I'm slowly moving forwardI've had to learn how to forget
But I'm still living with my regretsIf I could break through time
I'd wipe it out, I'd come out clean
Redo it all like it should have been
I'd live out loud and chase my dreams
You'd follow me
If I could break through timeI failed to see there's good in me
If only I'd known better
But in my mind, I've learned to fly
High above these wallsIf I could break through time
I'd wipe it out, I'd come out clean
Redo it all like it should have been
I'd live out loud and chase my dreams
You'd follow me
If I could break through timeNo, there's no making up for wasted time
Here's for all of the loved ones I let down
All I want is to leave the past behind
Make the future mine
