

# Fallout

## Buckcherry

Steady like a gun, I am living a nightmare  
Married to my fucking disease  
Can't stop now, wanna die in a car crash  
Maybe that's what I need I can't stop a deadlock  
I won't let you pray for me  
I'm not gonna stay long  
My head is turning Fallout, left me without our love  
Tear us apart my heart  
Burning inside me, oh yeah, hey Terrified of none, I am sleeping with hardware  
Fearless and fucking mean  
Out of control, stone cold and reckless  
Looking for my enemies I can't stop a deadlock  
I won't let you pray for me  
I'm not gonna stay long  
My head is turning Fallout, left me without our love  
Tear us apart my heart  
Burning inside me, oh Fallout, you're leaving me undone  
Maybe I'll use my gun  
It's right here beside me, oh Running from the law  
Always looking behind me  
They better get ready for me  
Wanna kill them all  
Put an end to this long chase  
I won't stop till I succeed The lawyers, the fraud  
The system is flawed  
It's time to take it to the streets  
I won't take the fall  
I wanna leave them with no trace  
For the naked eye to see I can't stop a deadlock  
I won't let you pray for me  
I'm not gonna stay long  
My head is turning Fallout, left me without our love  
Tear us apart my heart  
Burning inside me Fallout, you're leaving me undone  
Maybe I'll use my gun  
It's right here beside me  
It's right here beside me  
Burning inside me, oh  
Fallout
