

First Floor People

Barcelona

First floor people
Ill take my place among the throngs
Everyone reading books on how not to fallSome may say, the world looks
The same through red eyes, no way
Covered in dirt off the floor, Im seeing straightDont be scared if you know
Help me to explain myselfWho am I to fool now if youre gone, youre gone
If I am found below the ground
Im searching, desperatePrepared people, take your places on deck
Im a lost boy with no one to tell me I am safe
Overarching rules have told me not to think aboutWho am I to fool now if youre gone, youre gone?
If I am found below the ground
Im searching, desperateThis hole is deeper by the hour
My hands are bleeding I spin around, youre nowhere
Ill throw away my ugly plans
Theyre too tired to push me anywhere but downSo who am I to fool now if youre gone, youre gone
If I am found below the ground
Im searching, desperateSo who am I to fool now if youre gone, youre gone
If I am found below the ground
Im searching, desperate
