Savannah

Failure Anthem

One stop light, shines into my window every night
That old stop sign, faded like a memory overtime[Chorus]
Broken roads, won't stand in my way
Take me home, to where I found my faith
Where we walk in the footsteps in the shadows of our fathers
The city lights are way too bright
So take me home, right back home to
Savannah, Savannah, Savannah, home to
Savannah, Savannah, SavannahThought I had it all
But I found there's just some things you can't outgrow
The world may have changed
But the memories we made stay the same
(And they calling out my name)[Chorus]
The place where we first met on that day won't forget
The day we said goodbye, I left you for a better life
The place where I screwed up, to this day I can't deny
I had it made all along, but then I left you behindDo you remember the 4th of July?
When I saw the fireworks, shine in your eyes
Do you remember the 4th of July?
When I saw the fireworks shining into your eyes[Chorus]
