

# Wandering Star

## Empire of the Sun

Just me and you,  
What I see in you  
I remember too  
Never stopped  
Looking now at you  
What I really do  
Just one look on you  
Don't leave me now Don't you know when you crossed my path  
Felt like fate  
Don't you give all to who we are  
Fate don't fade  
We're going into the past,  
Retrieve everything Wandering stars might fade away, but you  
Know that the Sun is here to stay  
I'll be the weather to you  
'Cause you walk the line  
Between sugar and divine,  
My sweet diamond I'm afraid of hope, I may discover  
If I look too long, hide myself  
Staying on the move, in another town  
All the traces of you haunt me now Wandering stars might fade away, but you  
Know that the Sun is here to stay  
I'll be the one to tell you  
'Cause you walk the line  
Between sugar and divine,  
My sweet diamond(x2)  
Never forget that avenue  
Summer went in love with you  
(Never forget)  
Since you caught my hit on you,  
Feel the streets that led me to Am I past the road  
I'm straight arrow  
How I feel right now  
Falling crown  
In just a while  
I'll be back in style  
Way beyond the tunes  
Towards the sun Wandering stars might fade away, but you  
Know that the Sun is here to stay

I'll be the one to tell you  
'Cause you walk the line  
Between sugar and divine,  
My sweet diamond(x4)  
Never forget that avenue  
Summer went in love with you  
(Never forget)  
Since you caught my hit on you,  
Feel the streets that led me to
