

Chase It

MIYAVI

(Chase it x4)Just run run run run till you fall dead
Once the guns bang bang bang out in yo' headIt's a race
You gotta chase, wealth and fame, in the mazeThe more you get the more you want
Where the fuck we heading for?(Chase it x2)The road goes around and comes back again
We download the whole world to play it just pretendLike a game
Kind of fate, of human shame, with no aimThe more you get the more you want
Where the fuck we heading for?The more you get the more you want
Where the fuck we heading for?
Just keep on running till you die
There's no way out(Chase it x3)Just run run run run till your time runs out
Tick tock tick tock before the final countIt's a race
You gotta chase, wealth and fame, in the mazeThe more you get the more you want
Where the fuck we heading for?The more you get the more you want
Where the fuck we heading for?
Just keep on running till you die
There's no way out(Chase it)No way out
No way out
No way out(Chase it x3)
