

# Here Comes the King

## Snoop Lion

[Intro : Angela Hunte]

Show no fear, we made it clear

That the warriors are coming and we no play[Hook : Angela Hunte]

We at war with the army of haters

And when we kill em we just smoke 'em like papers

Somebody get me my crown cuz I'm feeling it now

You might be a lord; but here comes the king

You might be a lord; but here comes the king[Verse 1: Snoop Lion]

Here I come'a steppin in the dance

Here I come'a steppin in the dance

Posted up the wall here inna mi stance

Posted up the wall here inna mi stance

We never fail, we only shine with brilliance

One king one faith one religion

And if you hear me come and join the revolution

One king one faith one religion

And if you hear me come and join the revolution[Hook][Verse 2: Snoop Lion]

They gonna love me

Call me black chutney

All gold chrome with the diamonds in the back

Lil homies in the front dont know how to act

We comin deep and you never see us smiling

10 million strong and we rumble and we riding

Two shots up for my Africans

Been around the world and back again

Feel so good gotta let me in

Power to the people let em kiss the ring

Bow - here comes the king[Hook][Verse 3: Snoop Lion]

They know me in Japan and Pakistan

Ganja makes me lord of all the land

Im royalty no need for me to wear a crown

Born a rebel then I became a man

I heard a voice, he said that I would understand

One king one faith one religion

And if you love me come and join the revolution

One king one faith one religion

And if you love me come and join the revolution[Hook]
