

# Breathe In. Breathe Out.

## Hilary Duff

I remember what I wore on our first date  
I remember how you felt against my face  
I remember all the songs we used to hate  
I remember we were sleepless in New York  
I remember how my avenues were yours  
I remember when they weren't anymore

No more rain or shine  
Well, I guess this is goodbye, I

I made a top ten list  
Of all the things I miss  
Your lying eyes and lips  
They didn't make it  
And when I'm cold at night  
I know that I'll survive  
Until I feel alright  
I'm gonna fake it  
Breathe in, breathe out  
Breathe in, breathe out  
Breathe in, breathe out  
Breathe in, breathe out  
Breathe in, breathe out  
Breathe in, breathe out

I remember when we had too much to dream  
I was hanging on your words like I'm sixteen  
I remember being high on your caffeine  
I remember when we fell too deep to feel  
I remember when the real became too real  
I remember when it hurt too much to heal

No more rain or shine  
Well, I guess this is goodbye, I

I made a top ten list  
Of all the things I miss  
Your lying eyes and lips  
They didn't make it  
And when I'm cold at night

I know that I'll survive  
Until I feel alright  
I'm gonna fake it  
Breathe in, breathe out  
Breathe in, breathe out  
Breathe in, breathe out  
Breathe in, breathe out  
Breathe in, breathe out  
Breathe in, breathe out

"X" marks the spot where we left our hearts in  
"X" marks the spot where we fell apart in  
"X" marks the spot where we left our hearts in  
I know, I know

I made a top ten list  
Of all the things I miss  
Your lying eyes and lips  
They didn't make it  
And when I'm cold at night  
I know that I'll survive  
Until I feel alright  
I'm gonna fake it  
Breathe in, breathe out  
Breathe in, breathe out  
Breathe in, breathe out  
Breathe in, breathe out  
Breathe in, breathe out  
Breathe in, breathe out

"X" marks the spot where we left our hearts in  
"X" marks the spot where we fell apart in  
"X" marks the spot where we left our hearts in  
I know, I know
