

Saviour (Vox)

VNV Nation

As the stars appear
I know I'll find you staring at the sky
Pointlessly reaching for some light
You hope to guide your sorry way Your body bleeding
Your body burned
Your body scarred
Around the cinder of your heart A God of love
A God of care
A God of hope
A God of words A God as lost as you and blind
To fill your hollow soul again
You seek a God to stand above you
Wrapping healing arms around you You'll find another God of pain
A God of suffering and tears
Give yourself unto your God
Sacrifice yourself again Burn your thoughts erase your will
To Gods of suffering and tears
Tie hallowed bonds around your hands
Kneel before this seat of shame To Gods as lost
Gods as blind
Gods of suffering and pain
