

Eye Over You (Rhythm Focus Mix)

Haujobb

"We must challenge the changes now engulfing our world for America's enduring objectives for peace and prosperity, democracy, and human dignity."needles in a vale of safety

dry up a silent sea

protect the country

immediately

necessary natives right

deflecting all light

never look into the eyes

gentle liedoubtless on the screen

in justice we believe

within the scope of legality

but left on your own

grown up as them all

decisions desired to ratify the lawnever want to know

the secrets of the high brow

upright in blue

eye over youvenge violence priviledge

exactly chosen quality

intuitive systematically

faultless protection

neutral selection

all what it seems

must be a new world's dreamnever want to know

the secrets of the high brow

upright in blue

eye over youeye over you (at 3:22 in right speaker)
