

Don't Take Away My Heart

Modern Talking

In my heart, in my heart
Love will last forever
In my heart just for you Electrify my heart, electrify my soul
Oh baby, don't, don't lose control
Electrify my skin, electrify my brain
Oh baby, don't leave me again Now what I do, I do it just for you
Love will last forever
You are a part of me, I'm not too blind to see
We'll stay together Don't take away my heart
Don't break it and depart
I'll be right here next to you Don't take away my heart
Don't break it and depart
When my heart beats, oh, it's true Why do you promise? Why do you promise, love?
Don't say it's over
Why do you promise? Why do you promise, love?
I'll be your lover Electrify my life, electrify the rain
Tell me the number of heaven again
Electrify my night, electrify my time
You are always on my mind Why do I love you so? Cannot let you go
Dreams will last forever
The way you look tonight, lighting up my life
Let's stay together Don't take away my heart
Don't break it and depart
I'll be right here next to you Don't take away my heart
Don't break it and depart
When my heart beats, oh, it's true Why do you promise? Why do you promise, love?
Don't say it's over
Why do you promise? Why do you promise, love?
I'll be your lover I will stay, I will go, oh, my baby, let me know
I will die, I will steal, baby, if your love is real Why do you promise? Why do you promise, love?
Don't say it's over
Why do you promise? Why do you promise, love?
I'll be your lover
