

# Wish We Could Go Back

Vivian Green

Remember wanting me so much  
I used to tingle from your touch  
And I'd wait for you to come home  
You're sittin' right beside the phone  
And there was nothing else but you  
And who could separate us to  
I'd never know when we got lost  
But now I'm counting up the calls  
I wish we could go back  
To love less complicated  
I wish we could go back  
Ready to prove our love when they said we couldn't make it, no  
Please tell me you miss that  
That new love, crazy love  
'Cause I wanna go back  
I know it's possible, tell me you feel it too  
What I wouldn't do to rekindle our romance  
Oh, what I wouldn't do, not many get a second chance, oh no  
Come on baby, 'cause our love hasn't yet died  
Ooh, it hasn't died, we gotta give love one more try  
We barely talked we barely smiled  
No hint of what we used to be  
No courtesy and no romance  
Not to much left of you and me  
But it's not to late I believe  
But baby we can get it back  
'Cause life's to short for us to let  
What we had die and just forget  
I wish we could go back  
To love less complicated  
I wish we could go back  
Ready to prove our love when they said we couldn't make it, no  
Please tell me you miss that  
That new love, crazy love  
  
'Cause I wanna go back  
I know it's possible, tell me you feel it too  
Let's go back  
(I know it's possible)

(Oh, what I wouldn't do)  
Let's go back  
(I know it's possible)  
(Don't you wanna go back, baby)  
Let's go back  
(I know it's possible)  
(Oh, what I wouldn't do)  
Let's go back  
(Go back)  
(Go back to the way we used to be be)  
I wish we could go back  
To love less complicated  
I wish we could go back  
Ready to prove our love when they said we couldn't make it, no  
Please tell me you miss that  
That new love, crazy love  
'Cause I wanna go back  
I know it's possible, tell me you feel it too  
What I wouldn't do to rekindle our romance  
Oh, what I wouldn't do, oh, what I wouldn't do  
Come on baby, 'cause our love hasn't yet died  
I know it's possible, tell me you feel it to  
I wish we could go back  
To love less complicated  
I wish we could go back  
Ready to prove our love when they said we couldn't make it, no  
Please tell me you miss that  
That new love, crazy love  
'Cause I wanna go back  
I know it's possible, tell me you feel it too
