Everyday Miracles

Kay-D

It's the everyday miracles
That keep my hope alive
It's the way You move in little things
That help me survive
And I know, You move in greater ways
But this is great enough for me
What You do with my everyday is amazing
The things that seem impossible
I lay down at Your feet
And just when I am needing most
You are there for me
And I know you've made the lame to walk
And caused the blind to see
But what You do with my everyday is amazing
When I'm down on my knees
And I can't make it through
When it's up to me
It's really up to You
