Hold Me Now

Johnny Logan

Don't don't close your heart to how you feel
Dream and don't be afraid the dream's not real
Close your eyes pretend it's just the two of us again
Make believe this moment's here to stayTouch touch me the way you used to do
I know tonight could be all I'll have with you
From now on you'll be with someone else instead of me
So tonight let's build this memory for the last timeHold me now don't cry don't say a word just
Hold me now and I will know though we're apart
We'll always be together forever in love
What do you say when words are not enoughTime time will be kind once we're apart and
Your tears tears will have no place in your heart I wish
I I could say how much I'll miss you, when you're gone
All my love for you will go on and on andHold me now don't cry don't say a word just
Hold me now and try to understand
That I hope at last you've found what you've been searching for
And though I won't be there anymore I will always love you
(Hold me now don't cry)Don't say a word just hold me now and I will know though
We're apart we'll always be together forever in love
What do you say when words are not enough
What can I say now my words are not enough
