

You're a Star (Interlude)

[Amerie](#)

You make me feel real good
And it's too good to be true
'Cause I can't seem to get enough
I'd do anything just to have your love
I can't get away from you You make me feel real good
You should be here with me
You make me feel so good
This is where you need to be You must be the endless thing around
Yes, you are, you are
Heaven lost a star when you came down
You're a star, yes, you are, you're a star You should be here with me
You should be here
