

# Wherever This Goes

## The Fray

I could slow down  
Waste away in this town  
Standing on the sidewalk  
Watching this parade  
Or we could get out  
Pack our suitcase right now  
Find ourselves a bus stop,  
Make our own way!

Cause it feel like Iâ€™ve been here forever  
Afraid to be my father, and afraid to leave him too!  
But itâ€™s my name I painted on the doorway  
Tells me where I came from and what I gotta do!

Whatever this goes (goes)  
No matter how far (far)  
Baby, you are the song thatâ€™s written in our heart  
Whatever we stand, wherever we fall  
Donâ€™t matter at all, cause I will be forever yours  
From this moment till the day curtains close  
Donâ€™t matter at all, cause I will be forever yours  
Wherever this goes!

So weâ€™re here now  
Finally found our way out  
On the road to some place,  
Some place that we donâ€™t know!  
But itâ€™s alright, keep on driving all night  
Straight on to till morning, I know its a way to go

Cause it feel like weâ€™ve been here forever  
I donâ€™t how much further and where weâ€™re going to  
But itâ€™s our name I painted on the doorway  
It doesnâ€™t say where we came from, and what we gotta do

Oh, oh, oh whatever this goes (goes)  
No matter how far (far)  
Baby, you are the song thatâ€™s written in our heart  
Whatever we stand, wherever we fall  
Donâ€™t matter at all, cause I will be forever yours

From this moment till the day curtains close  
Don't matter at all, cause I will be forever yours  
Wherever this goes!  
No matter how far, baby you are the song it's written on my heart  
Wherever we stand, wherever we fall  
Don't matter at all, cause I will be forever yours  
From this moment till the day curtains close  
Don't matter at all, cause I will be forever yours  
Wherever this goes
