

# Guns High

## Ace Hood

[Chorus - R. City]

We come from a city where the young die  
So why don't we get to use and put'cha guns high  
About to lose that's the reason why we must try  
The streets hot from the night till the sunrise  
Ooooh wahoooo, ooooh (And this is what it sounds like)  
Ooooh wahoooo, ooooh (Came up from the ground like)[Verse 1 - Ace Hood]

Pummy yummy yummy, mom addicted to money  
Grab a clip of them hundreds, and half a ounce of that scummy  
Ready to hit the block try to seek them coming for that tummy  
If I don't make it home tell my momma to pray for me  
I'ma get it because I got it, came up from the bottom  
Pussy nigga get shot up, so shut up and give me profit  
Niggas they want me dead and I swear that there ain't no stopping  
I'ma go out and get it, just watch me pop off your socket  
Play the eighth for you haters, they see me on corner trapping  
We the Best that's the lesson I'll take you pussies to college  
Imagine me I'm gutta, now be the best it's of Heaven  
I swear that till I perish I keep these pussies in panic whaa[Chorus][Verse 2 - Ace Hood]  
Now watch me move through the city, gutta be my religion  
Only vision to get it is take it without a witness  
They say they want me dead and it's fuck them that's my decision  
(Fuck them) Fuck them with middle fingers  
Them pumps in the penitentiary, walk the block with this energy  
Give a mug at my enemies, tell them who they 'posed to be  
Hang them up like a poster be, play them like Monopoly  
Till the end of my time I be G-U-T-T-A, Mister H-Double-O-D the prodigy  
Tell them they can follow me, only cabbage and celery  
Getting money heavily, smoking up on that broccoli  
Ain't no vegetarians, play with me and you burger meat  
Better have a pass to hit my streets with the currency, nigguh[Chorus][Verse 3 - R. City]

Live from the ghetto we be re-e-al  
People only recognize the re-e-al  
Cops hate because we dont sque-e-l  
But we don't give a fuck about how they fee-e-l  
See ain't nobody stopping with, tell them fosie back oh with  
(Incomprehensible) What them blockers say  
Let them know we do not play  
Taking over soon some day, (Incomprehensible)[Chorus X2]
