## Class A

## **Pete Murray**

Be yourself, if you wanna know your name

Be your friends and if you ever want to payAll of this place is all about to fall Right down on you if you change what you sayAnd if you wanna hide yourself Be the one, it's hard to know how far you goAll of this place is all about to fall Right down on you, if you change what you sayAnd if you wanna hide yourself Be the one, it's hard to know how far you goAll of this place is all about to fall Right down on you if you change what you sayAnd you know what you know

And you see what you bend Can't believe it's insane Come on be what you mean
