

# Shot in the Dark

## Great White

I have learned the golden words  
"You watch your step"  
That life is made for fools  
And the devil takes the rest  
I know my heart is like a fire  
It burns alone I come from somewhere else  
Where grapes of rock are grown  
Call me a shot in the dark  
Firing blind, firing wild  
Just like a shot in the dark  
You'll never see- no stopping me  
I'm a shot in the dark  
So I live in other days  
I take my time I make my way down streets  
Where no one sees the signs  
Can I learn the simple truth  
Face the fact No matter where I am  
I can never go back  
'Cause I'm a shot in the dark  
I shoot out from the black  
I never can go back  
Forever changing tracks  
I'm a shot in the dark
