Push, It's Love

Ufo

I take you walking out tonight
I'm looking good for you
What you see is what you get
You won't need a clueCome on girl, give it all you've got
Don't just stand and stare
Love, love, love, love
Love me if you really dareAnd you know that I'll come
I'll do it anywhere
In and out and up and down
As long as we get there
Push it's love, make it feel so good
Push it's love, do it like you shouldI can't stop when you're so hot
Oh, really let it go
It's standing up or sitting down
Come on, let me knowMake it to the music
Love it like you don't care
Down, down, down, down
Get it right down thereAnd you know that I'll come
I'll do it anywhere
In and out, up and down
As long as we get there
Push it's love, make it feel so good
Push it's love, do it like you shouldWhen I get to rollin' now
Watch this trouser snake
An', oh my baby, hang on in
Keep on till you shakeWhen you dance, dressed way low
I'll be at your feet
You know, know, know, know
You're good enough to eatAnd you know that I'll come
I'll do it anywhere
In and out, up and down
As long as we get there
Push it's love, make it feel so good
Push it's love, do it like you should
