Out Of The Blue

Foreigner

Not a lot of time to think today
It's almost over now
Didn't need it anyway
Guess I knew somehow
I feel love around me and the feeling grows
As your love surrounds me how was I to know
That straight out of nowhere you'd come to me
Out of the blue into my heart
You came to me
Out of the blue into my heart
Never know what life can bring your way
You never learn
Over night, from day to day
Where our love's concerned
It was so hard to hold on but I never let go
For so long, so hard to take how was I to know
Oh that right out of nowhere you'd come to me
Out of the blue and into my heart
You came to me
Out of the blue straight to my heart
Oh girl it was you
You came out of the blue into my heart
You came to me
Out of the blue straight to my heart
You came to me
Out of the blue, into my heart, oh yeah
You came to me
Out of the blue straight to my heart
Oh girl it was meant to be
You came out of the blue into my heart
Out of the blue straight to my heart
You came to me
Out of the blue and into my heart
You came to me
