This Momentous Day

Anja Garbarek

On this momentous day curious seduction
The most striking thing
Changes color and its shape
Hissing words of no safety any moreOn this momentous day
Already in position
So delicate so clean, I forget to leave
And my name has long, long goneHey James, if you wish the race is on
Hey James, if you please the chase is on
I'm ready, ready, ready to recall
I'm ready, ready, ready to recall the visualOn this momentous day
The story's in the background no need to tell
I've got shadows crossing my face
As I run my hands alongOn this momentous day
Seems to have cracked wide open
Leaving nothing left to dream, I hear myself scream
Is this land or more skyDid you notice that we moved
Moved fast along this thin strip flashing
Do you think we were followed here, follow me
'Cause there'll be no flight, there'll be a killingHey James, if you wish the race is on
Hey James, if you please the chase is on
I'm ready, ready, ready to recall
I'm ready, ready, ready to recall
I'm ready, ready, ready to recall
I'm ready, ready, ready to recall the visualOn this momentous day
No effort is made
No visible sign of any kind
That this will ever end
